NCU Portal Systems Sitemap

- **Quick Window** (menuType: FOLDER, Path: /system/20, Parent Category: Root) - Description: Quick access category containing frequently used applications and tools.

  - **iNCU** (menuType: APPLICATION, Path: /system/incu, Parent Category: Quick Window) - Description: Integrated NCU portal providing unified access to campus services.
  - **New E-Form** (menuType: APPLICATION, Path: /system/194, Parent Category: Quick Window) - Description: Electronic form submission system for administrative processes.
  - **Research and Development System** (menuType: APPLICATION, Path: /system/192, Parent Category: Quick Window) - Description: System for managing information on research and development projects.
  - **Activitys2.0_iNCU** (menuType: APPLICATION, Path: /system/20221006, Parent Category: Quick Window) - Description: Platform for managing student activities and events (Activities 2.0 on iNCU).
  - **Seminar System** (menuType: APPLICATION, Path: /system/seminarsys, Parent Category: Quick Window) - Description: System to organize and register for academic seminars and events.
  - **Student Vote** (menuType: APPLICATION, Path: /system/61, Parent Category: Quick Window) - Description: Online platform for student elections and voting.
  - **meetingMinutes** (menuType: APPLICATION, Path: /system/meetingminutes, Parent Category: Quick Window) - Description: Application for recording and managing meeting minutes.
  - **Management of R & D Database System** (menuType: APPLICATION, Path: /system/64, Parent Category: Quick Window) - Description: System for maintaining a database of research and development projects.
  - **iHouse** (menuType: APPLICATION, Path: /system/20220523-ihouse, Parent Category: Quick Window) - Description: Housing information system for on-campus accommodations (iHouse).
  - **Verification Form for Graduation** (menuType: APPLICATION, Path: /system/incu-graduate-2, Parent Category: Quick Window) - Description: Online form for verifying fulfillment of graduation requirements.
  - **Course Evaluation** (menuType: APPLICATION, Path: /system/78, Parent Category: Quick Window) - Description: System for students to evaluate and provide feedback on courses.
  - **Course Table** (menuType: APPLICATION, Path: /system/59, Parent Category: Quick Window) - Description: Tool for viewing and managing personal course schedules (timetables).
  - **NCU Mail** (menuType: APPLICATION, Path: /system/129, Parent Category: Quick Window) - Description: Webmail portal for NCU email accounts.
  - **Tuition Payment Slip** (menuType: APPLICATION, Path: /system/82, Parent Category: Quick Window) - Description: Service for generating official tuition fee payment slips.
  - **Proof Payment of Tuition** (menuType: APPLICATION, Path: /system/tuition, Parent Category: Quick Window) - Description: Service for obtaining proof or receipts of tuition fee payments.
  - **CA Software Service Site** (menuType: APPLICATION, Path: /system/110-newca-production, Parent Category: Quick Window) - Description: Portal for downloading or accessing certificate authority software and services.

- ○ **Mid-term Early Warning** (menuType: APPLICATION, Path: /system/incu-ewarningstudent, Parent Category: Quick Window) - Description: Early alert system for mid-semester academic performance issues.
- ○ **Graduate Report** (menuType: APPLICATION, Path: /system/incu-graduate-1, Parent Category: Quick Window) - Description: System for submitting and managing reports or surveys for graduating students.

- · **Student** (menuType: FOLDER, Path: /system/21, Parent Category: Root) - Description: Main category for student-related services and applications.

  - ○ **Student Information** (menuType: FOLDER, Path: /system/student_info, Parent Category: Student) - Description: Category for personal academic records and student information services (scores, graduation verification, etc.).
    - ▪ **Score** (menuType: APPLICATION, Path: /system/162, Parent Category: Student Information) - Description: Academic record system for viewing student grades and scores.
    - ▪ **Verification Form for Graduation** (menuType: APPLICATION, Path: /system/incu-graduate-2, Parent Category: Student Information) - Description: Online form for verifying fulfillment of graduation requirements.
    - ▪ **Registration Status** (menuType: APPLICATION, Path: /system/incu-registrationflow, Parent Category: Student Information) - Description: System that displays the current status of a student's registration or enrollment.
    - ▪ **Report Loss of Student Card** (menuType: APPLICATION, Path: /system/32, Parent Category: Student Information) - Description: Service to report and handle cases of lost student ID cards.
  - ○ **Academic Services** (menuType: FOLDER, Path: /system/23, Parent Category: Student) - Description: Category containing academic service systems (course enrollment, curriculum, etc.).
    - ▪ **Curriculum System** (menuType: APPLICATION, Path: /system/34, Parent Category: Academic Services) - Description: System for managing course curriculum information and class schedules.
    - ▪ **Course Selection System** (menuType: APPLICATION, Path: /system/35, Parent Category: Academic Services) - Description: Platform for students to select and enroll in courses.
    - ▪ **Graduate Report** (menuType: APPLICATION, Path: /system/incu-graduate-1, Parent Category: Academic Services) - Description: System for submitting and managing reports or surveys for graduating students.
    - ▪ **Course Table** (menuType: APPLICATION, Path: /system/59, Parent Category: Academic Services) - Description: Tool for viewing and managing personal course schedules (timetables).
    - ▪ **new ee-class system** (menuType: APPLICATION, Path: /system/ncueeclass, Parent Category: Academic Services) - Description: Online e-learning platform for course content and resources (NCU EE-Class).
    - ▪ **School Leaving System** (menuType: APPLICATION, Path: /system/incu-leaveflow, Parent Category: Academic Services) - Description: System for handling student departure or graduation clearance procedures.

- **Learning Service** (menuType: FOLDER, Path: /system/24, Parent Category: Student) - Description: Category containing learning-related services (e-learning, course evaluations, etc.).
    - **Non-simultaneously Teaching** (menuType: APPLICATION, Path: /system/39, Parent Category: Learning Service) - Description: Platform for asynchronous teaching and learning (non-simultaneous education).
    - **Course Evaluation** (menuType: APPLICATION, Path: /system/78, Parent Category: Learning Service) - Description: System for students to evaluate and provide feedback on courses.
    - **MyET** (menuType: APPLICATION, Path: /system/myet, Parent Category: Learning Service) - Description: English language learning and practice platform (My English Tutor).
- **Life Service** (menuType: FOLDER, Path: /system/25, Parent Category: Student) - Description: Category containing student life services (housing, finances, etc.).
    - **Student Dormitory Network System** (menuType: APPLICATION, Path: /system/dormnet, Parent Category: Life Service) - Description: System managing network access and related services in student dormitories.
    - **School Grants System** (menuType: APPLICATION, Path: /system/42, Parent Category: Life Service) - Description: System for managing student grants and financial aid.
    - **Tuition Payment Slip** (menuType: APPLICATION, Path: /system/82, Parent Category: Life Service) - Description: Service for generating official tuition fee payment slips.
    - **Proof Payment of Tuition** (menuType: APPLICATION, Path: /system/tuition, Parent Category: Life Service) - Description: Service for obtaining proof or receipts of tuition fee payments.
    - **Scholarships System** (menuType: APPLICATION, Path: /system/134, Parent Category: Life Service) - Description: System for managing scholarships and student award information.
    - **Human Resource System** (menuType: APPLICATION, Path: /system/human, Parent Category: Life Service) - Description: Human resource management system for personnel-related information (possibly for student assistants or campus jobs).
- **Student Consulting Service** (menuType: FOLDER, Path: /system/26, Parent Category: Student) - Description: Category containing student counseling and support services.
    - **Tutor Counseling Resource** (menuType: APPLICATION, Path: /system/44, Parent Category: Student Consulting Service) - Description: Platform providing resources and support for tutor counseling services.
    - **Mid-term Early Warning** (menuType: APPLICATION, Path: /system/incu-ewarningstudent, Parent Category: Student Consulting Service) - Description: Early alert system for mid-semester academic performance issues.
    - **Personal Consultation** (menuType: APPLICATION, Path: /system/consult, Parent Category: Student Consulting Service) - Description: System for scheduling and managing personal counseling sessions for students.
- **Library Services** (menuType: FOLDER, Path: /system/116, Parent Category: Student) - Description: Category containing library resource services and research tools.
    - **Library Cloud Services** (menuType: APPLICATION, Path: /system/library-cloud-services, Parent Category: Library Services) - Description: Portal for cloud-based library services and digital resources.
    - **Turnitin** (menuType: APPLICATION, Path: /system/turnitin, Parent Category: Library Services) - Description: Plagiarism checking and originality verification service for academic papers.

- **Theses/Dissertations** (menuType: APPLICATION, Path: /system/etdsimple, Parent Category: Library Services) - Description: System for submitting, reviewing, and archiving theses and dissertations.
  - **College of Engineering Services** (menuType: FOLDER, Path: /system/EC Service, Parent Category: Student) - Description: Category containing specialized services for the College of Engineering.
    - **CoE Online Application** (menuType: APPLICATION, Path: /system/coeoa, Parent Category: College of Engineering Services) - Description: Online application system for services within the College of Engineering.
  - **Dormitory Service** (menuType: FOLDER, Path: /system/130, Parent Category: Student) - Description: Category containing dormitory management and support services.
    - **Repair Service** (menuType: APPLICATION, Path: /system/155, Parent Category: Dormitory Service) - Description: Service for reporting issues and requesting repairs in dormitory facilities.
    - **Dormitory drawing system** (menuType: APPLICATION, Path: /system/132, Parent Category: Dormitory Service) - Description: Lottery system for assigning dormitory accommodations to students.
    - **Student Dormitory Network System** (menuType: APPLICATION, Path: /system/dormnet, Parent Category: Dormitory Service) - Description: System managing network access and related services in student dormitories.
  - **iHouse Service** (menuType: FOLDER, Path: /system/, Parent Category: Student) - Description: Category containing services related to student housing (iHouse).
    - **iHouse** (menuType: APPLICATION, Path: /system/20220523-ihouse, Parent Category: iHouse Service) - Description: Housing information system for on-campus accommodations (iHouse).

- **Adm. Service** (menuType: FOLDER, Path: /system/19, Parent Category: Root) - Description: Main category for administrative (staff) service applications.

  - **Services for General Affairs** (menuType: FOLDER, Path: /system/27, Parent Category: Adm. Service) - Description: Category containing administrative applications for general affairs operations.
    - **Transferring Account System** (menuType: APPLICATION, Path: /system/46, Parent Category: Services for General Affairs) - Description: System for transferring accounts or budget funds between departments (General Affairs).
    - **Property Management** (menuType: APPLICATION, Path: /system/47, Parent Category: Services for General Affairs) - Description: System for managing university properties and assets.
  - **Services for Academic Affairs** (menuType: FOLDER, Path: /system/91, Parent Category: Adm. Service) - Description: Category containing administrative applications for academic affairs management.
    - **Curriculum System** (menuType: APPLICATION, Path: /system/34, Parent Category: Services for Academic Affairs) - Description: System for managing course curriculum information and class schedules.
    - **Course Selection System** (menuType: APPLICATION, Path: /system/35, Parent Category: Services for Academic Affairs) - Description: Platform for students to select and enroll in courses.
    - **Graduate Report** (menuType: APPLICATION, Path: /system/academic-graduate, Parent Category: Services for Academic Affairs) - Description: System for submitting and managing reports or surveys for graduating students.

- ▪ **Course Table** (menuType: APPLICATION, Path: /system/59, Parent Category: Services for Academic Affairs) - Description: Tool for viewing and managing personal course schedules (timetables).
- ▪ **new ee-class system** (menuType: APPLICATION, Path: /system/ncueeclass, Parent Category: Services for Academic Affairs) - Description: Online e-learning platform for course content and resources (NCU EE-Class).
- ○ **Services for Student Affairs** (menuType: FOLDER, Path: /system/28, Parent Category: Adm. Service) - Description: Category containing administrative applications for student affairs management.
  - ▪ **School Grants System** (menuType: APPLICATION, Path: /system/42, Parent Category: Services for Student Affairs) - Description: System for managing student grants and financial aid.
  - ▪ **Student Vote** (menuType: APPLICATION, Path: /system/61, Parent Category: Services for Student Affairs) - Description: Online platform for student elections and voting.
  - ▪ **Scholarships System** (menuType: APPLICATION, Path: /system/134, Parent Category: Services for Student Affairs) - Description: System for managing scholarships and student award information.
  - ▪ **Personal Consultation** (menuType: APPLICATION, Path: /system/consult, Parent Category: Services for Student Affairs) - Description: System for scheduling and managing personal counseling sessions for students.
  - ▪ **Student Affairs System** (menuType: APPLICATION, Path: /system/189, Parent Category: Services for Student Affairs) - Description: Comprehensive system for managing student affairs records and processes.
- ○ **Research and Development Service** (menuType: FOLDER, Path: /system/30, Parent Category: Adm. Service) - Description: Category containing research-related applications and analytics tools.
  - ▪ **Research and Development System** (menuType: APPLICATION, Path: /system/192, Parent Category: Research and Development Service) - Description: System for managing information on research and development projects.
  - ▪ **SciVal** (menuType: APPLICATION, Path: /system/scival, Parent Category: Research and Development Service) - Description: Research performance analysis tool for research output and metrics (Elsevier SciVal).
  - ▪ **PURE** (menuType: APPLICATION, Path: /system/pure, Parent Category: Research and Development Service) - Description: Research information management system for profiles, publications, and projects (Elsevier PURE).
- ○ **Library Services** (menuType: FOLDER, Path: /system/115, Parent Category: Adm. Service) - Description: Category containing library resource services and research tools.
  - ▪ **Library Cloud Services** (menuType: APPLICATION, Path: /system/library-cloud-services, Parent Category: Library Services) - Description: Portal for cloud-based library services and digital resources.
  - ▪ **Turnitin** (menuType: APPLICATION, Path: /system/turnitin, Parent Category: Library Services) - Description: Plagiarism checking and originality verification service for academic papers.
  - ▪ **Theses/Dissertations** (menuType: APPLICATION, Path: /system/etdsimple, Parent Category: Library Services) - Description: System for submitting, reviewing, and archiving theses and dissertations.

- **Computer Center Service** (menuType: FOLDER, Path: /system/computer-center, Parent Category: Adm. Service) - Description: Category containing IT service applications provided by the computer center.
  - **Virtual Desktop** (menuType: APPLICATION, Path: /system/vdi, Parent Category: Computer Center Service) - Description: Virtual desktop infrastructure service for remote access to a desktop environment.
  - **Office365 Account Service System** (menuType: APPLICATION, Path: /system/office365, Parent Category: Computer Center Service) - Description: System for managing Office 365 accounts and related services.
  - **SDsystem** (menuType: APPLICATION, Path: /system/sdsystem, Parent Category: Computer Center Service) - Description: System deployment or software distribution platform (SD system).
  - **CA Software Service Site** (menuType: APPLICATION, Path: /system/110-newca-production, Parent Category: Computer Center Service) - Description: Portal for downloading or accessing certificate authority software and services.
  - **VPN** (menuType: APPLICATION, Path: /system/vpn, Parent Category: Computer Center Service) - Description: Virtual Private Network service for secure remote access to the campus network.
  - **KMS : Key Management Service** (menuType: APPLICATION, Path: /system/kms, Parent Category: Computer Center Service) - Description: Key Management Service for managing software licenses and encryption keys.
  - **GoogleApps (G Suite) Service** (menuType: APPLICATION, Path: /system/gsuite, Parent Category: Computer Center Service) - Description: Service for managing Google Workspace (formerly G Suite) accounts and resources.
  - **SPSS License Control System** (menuType: APPLICATION, Path: /system/spss-license-control, Parent Category: Computer Center Service) - Description: System for managing and controlling SPSS software license usage.
  - **cloudservice** (menuType: APPLICATION, Path: /system/cloud-service, Parent Category: Computer Center Service) - Description: Cloud service platform for requesting and managing cloud computing resources.
- **Center of Env. Protection and Saefty** (menuType: FOLDER, Path: /system/ep-center, Parent Category: Adm. Service) - Description: Category containing applications for environmental protection and safety management.
  - **Center of Env. Protection and Sa** (menuType: APPLICATION, Path: /system/eps-center, Parent Category: Center of Env. Protection and Saefty) - Description: Environmental protection and safety management system (E.P. Center system).
- **Other Resources** (menuType: FOLDER, Path: /system/31, Parent Category: Adm. Service) - Description: Category containing miscellaneous applications and resources.
  - **New E-Form** (menuType: APPLICATION, Path: /system/194, Parent Category: Other Resources) - Description: Electronic form submission system for administrative processes.
  - **meetingManagement** (menuType: APPLICATION, Path: /system/meetingmanagement, Parent Category: Other Resources) - Description: System for scheduling and managing meetings and related tasks.
  - **Tuition Payment Slip** (menuType: APPLICATION, Path: /system/82, Parent Category: Other Resources) - Description: Service for generating official tuition fee payment slips.
  - **Proof Payment of Tuition** (menuType: APPLICATION, Path: /system/tuition, Parent Category: Other Resources) - Description: Service for obtaining proof or receipts of tuition fee payments.

- **Activitys2.0_iNCU** (menuType: APPLICATION, Path: /system/20221006, Parent Category: Other Resources) - Description: Platform for managing student activities and events (Activities 2.0 on iNCU).
- **Seminar System** (menuType: APPLICATION, Path: /system/seminarsys, Parent Category: Other Resources) - Description: System to organize and register for academic seminars and events.
- **MyET** (menuType: APPLICATION, Path: /system/myet, Parent Category: Other Resources) - Description: English language learning and practice platform (My English Tutor).
